

Incident Report

It is important to have written incident reports on file regarding injuries, property damage or other incidents that may result in a liability claim against your sports organization. Many such claims allege negligence, and written reports prepared immediately after an incident occurs are invaluable in defending these types of claims. In the event of a serious injury, it is important to ask for written statements from witnesses and individuals actually involved in the incident. One copy of the report should be kept on file with your sports organization indefinitely since many lawsuits are filed long after the injury occurs. One copy should be forwarded to us.

Attach any additional information that might be helpful in defense of a future claim, such as signed waiver, police report, doctor's statement, pre-game inspection report, routine facility maintenance report, photos taken at the time of the incident and written statements of witnesses.
